

SDT DONATES GUITARS TO ANDREW JACKSON ELEMENTARY

Music has found its way back into the St. Bernard Public School System thanks to several generous donations including one from SDT Waste and Debris Services. Sidney Torres, IV, president of SDT donated 35 acoustic guitars for a new guitar lab at Andrew Jackson Elementary School. The music program, like everything else in St. Bernard, was devastated by Hurricane Katrina. Now, two years later, the music program is stronger than ever, infused with money, instruments and time from several sources.

“Music can be a positive influence on kids and I am delighted to be able to contribute to the learning of the children of St. Bernard Public Schools,” Torres said. “I intend to continue to support the music program and hope that other businesses will consider helping this important program too.”
